## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 6, 11, 14 and 17 have been rejected under 35 U.S.C. 102(b) as being anticipated by Leon, 5775861.

Regarding claims 1 and 11, Leon discloses a shank (9, figures 9-11) unitary with a flange (1, 2), a pair of arms (3) hinged (8) to the shank and extending axially therefrom, and a pair of levers (50) extending from the base of the arms at an acute angle relative to the longitudinal axis of the shank (figure 9) all capable of performing the intended functions outlined in the claims.

Regarding claim 2, Leon discloses the arms and levers paired diametrically with respect to the shank (figures 9-11).

Regarding claim 6, Leon discloses the arms connected to the shank via a breakable thin web (6 and 8).

Regarding claim 14, Leo discloses protrusions (11, 52) that face away from the sheet member (5a) in the interposed posture.

Regarding claim 17, Leo discloses a breakable element for maintaining the initial posture of the arm (6).

***Allowable Subject Matter***

3. Claims 3-5, 7-10, 12, 13, 15, 16, 18-20 have been objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
